

The Garden Stream was developed as a garden dechlorinator that can be used as an in-line filter. We've taken the same technology that has made our Garden Grow effective, and added a few more benefits. The Garden Stream is equipped with 3/4" threaded brass inlet and outlet fittings for easy installation on outdoor faucets. It can be installed just before a timer in an automated system for hassle free dechlorinated watering. The Garden Stream's 10 inch loose media cartridge has six stages, each designed to work together.

Specifications

SKU:	CPGATOR-RS
Capacity:	80,000 gallons
Flow Rate:	2 gpm (not to exceed 4 gpm)
Housing Composition:	UV Resistant Polypropylene
Filter Application:	Chlorine, Chloramine, Sediment
Filter Media:	2 lbs. KDF 55, 1 oz KDF 73 Filament, 4 oz. Catalytic Carbon, 4 oz. Virgin Crystal Quartz, Sediment Pad
Thread Size:	3/4" GHT
Filter Efficiency :	85 - 90% Free Chlorine, Chloramine
Operating Temperature Range:	32°F (0°C) to 100°F (38°C)
Operating Water Pressure Range:	200 psi (Built to hold pressure)
Dimensions:	6.25" x 4" x 11.75"
Weight:	7.5 lbs.
