

Renews the Relax Bath Dechlorinator for a healthier, more enjoyable bath ... The Rainshower Way. Dechlorinate your bath water with the Relax by placing it into the tub and pulling it through the water with the attached 12- inch cord for 5 to 7 minutes or longer. As chlorinated water flows through the KDF, (copper and zinc), create a galvanic or electrolytic reaction which causes the two chlorine ions to form a harmless chloride. It changes the chlorine from an element into a harmless compound.

In addition to the KDF, the Relax also uses our specially washed and sun dried quartz crystals to help "energize" the water by reducing the water's surface tension. This allows for an increase in sudsing and lathering of soaps and shampoos. As a result, the water has a "lighter" feel, similar to the feeling of softened water.

Specifications

SKU:	RB3K-RS
Capacity:	200 Baths (1 year)
Filter Application:	Chlorine, Chloramine
Filter Media:	KDF, Virgin crystal quartz
Filter Efficiency:	Up to 100% (Chlorine) 25%-30% (Chloramine)
Operating Temperature Range:	40° F (5° C) to 120° F (49° C)
Dimensions:	4" x 5"
Weight:	6 oz.
